These APIs have rate limiting

Queuer.enqueue_in (queue_size * 10).seconds

Lame

Centralize API calls

Run inside Sidekiq

RemoteFaraday

RemoteOrchestrator

RemoteConnection

Recap

- RemoteFaraday
  - pushes request into redis
- RemoteOrchestrator watching queue
  - async call to RemoteConnection
- RemoteConnection GETs request
  - exclusive block
  - places response into redis
- RemoteFaraday sees response and returns it
